REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. Claims 7, 9, 13-17 and 20 are allowed. The closest prior art references Brain (US 4,415,184) and Trexler, Jr. (US 6,162,857) fails to expressly disclose or in combination teach the claimed microencapsulated material comprising the claimed core, interior shell, exterior shell, and gradient layer. Attention is directed the Remarks of 05/03/2010. The selection of the claimed components within the prior art involves an unduly and unobvious amount of modifications, wherein the references fail to motivate one to arrive at the totality of the claimed inventions. It is not known in the art of microencapsulation, there is no motivation to do so, nor, would it have been obvious to one of ordinary skill at the time of the invention. Hence, the invention as a whole is regarded as novel and unobvious over the prior art.
3. The status letter is noted. Petition has been made aware of the petition of 5/21/04 and a decision will be forthcoming.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
